

Hetro Dehumidifier Pre-Installation Procedure

A certified Electrician or engineer from the customer side needs to sign this document. The Dewteq engineer or Dealer will install the dehumidifier after receiving a signed copy. Please call us if you have any questions.

Customer PO No:

PO Dated:

Scope of Work by the Buyer:

S. No	Description	Scope	Details / Completed / Not applicable
1	Unloading and positioning the Dehumidifier at the desired installation location. If delivered to the buyer.	Buyer	
2	Associated Civil works, if any.	Buyer	
3	Mechanical (Structural) supports/Base for the Dehumidifier, if the wall is not available for installation.	Buyer	
4	Providing suitable Electrical cables/Electrical sockets, circuit breakers, and Earthing.	Buyer	
5	16A power points with MCB protection, without extension box.	Buyer	
6	Installation of Air conditioners, mention the capacity in Tons : It is mandatory, please provide. This Hetro dehumidifier only works when the AC is running.	Buyer	
7	Check while the AC is running and water is draining out with sufficient gravity.	Buyer	
8	The room is sealed enough to maintain the RH inside the room. Allow enough fresh air based on occupancy to maintain oxygen levels.	Buyer	
9	Cover the equipment in the room from dust. During installation, dust will evaporate due to drilling activity.	Buyer	
10	If the Buyer's facility requires insurance, eye protection, steel-toe shoes, a helmet, etc., these items will be provided by the Buyer.	Buyer	
11	Buyer declares that there are no plumbing pipes or electrical wires, or any other substances concealed behind the installed wall area, which might get damaged due to the drilling activity required for product installation.	Buyer	
12	If a fresh-air damper is used, please provide the fresh-air flow in CFM: Please note: If fresh air is used, the Hetro Dehumidifier is not sufficient; we need to add a fresh-air desiccant dehumidifier separately.	Buyer
