

**Moisture or Humidity Control with unique features and
easy-to-use solution from Dewteq Technologies - Hetro Dehumidifier**

Room design without AHU by using the Hetro Dehumidifier

Advantages of the above room design:

- 1) No AHU and minimal ductwork.
- 2) All units are wall mounted.
- 3) Faster execution.
- 4) Easy to maintain.
- 5) Fresh air through the wall mounted air purifier.

Limitations of the above room design:

- 1) Not suitable for above 5% fresh Air.
- 2) Not suitable for a below 40% RH target.
- 3) Not suitable for cleanrooms.

Hetro Dehumidifier advantages

- ✓ No water collection: Eliminates the need for a water collection tank.
- ✓ Wall-Mount Installation: Saves valuable floor space.
- ✓ No ductwork required: When we install in a room with minimal fresh air.
- ✓ Low noise operation.
- ✓ Low maintenance costs.
- ✓ Cost-effective when compared to desiccant dehumidifiers.
- ✓ Climate support feature: Warms the room when the ambient temperature is too low.

❖ We offer - 90 days, 90% return policy.

Dewteq Technologies Pvt. Ltd. is an innovative electronics manufacturer of dehumidification solutions. Since 2016, the company has been a trusted supplier of high-quality systems, proudly serving as an authorised representative of DST Dehumidifiers, a global leader in the field. Dewteq's commitment to innovation led to the invention of the Hetro Dehumidifier, a patented technology introduced to the global market. Based in Chikkamagalur, Karnataka, the company extends its services across India, Sri Lanka, and the Middle East, offering solutions for a wide range of applications.
